

1709866 (tel:1709866) - Transaction F-44/F-32 missing open items

Component: FI-GL-GL-A (Posting/Clearing), Version: 2, Released On: 06.05.2016

Symptom

Open items shown in transaction **FBL1N/FBL5N** are missing when you run transaction **F-44/F-32**.

Environment

SAP ERP Release Independent.

Reproducing the Issue

1. Go to transaction **FBL1N/FBL5N**;
2. Select vendor account, flag "*open items*" and execute;
3. Go to transaction code **F-44/F-32**;
4. Select vendor account, set current date as the clearing date, select company code, select currency, select "*normal OI*" and execute;
5. Compare the result between **FBL1N/FBL5N** and **F-44/F-32**.

Cause

The causes are listed under each point in the resolution section of this KBA.

Resolution

The following is relevant for the standard program:

- a) Check if the clearing date on the initial screen of **F-44/F-32** is equal to or later than the posting date of the items.
- b) Check if the items have a special GL indicator on them, and if so, deselect the "*Normal OI*" flag on the initial screen of **F-44/F-32**.

c) Check that the items are not included in a payment proposal that has not yet been paid. You can check in table **REGUH** to see if these items are in there. If so, then you should either complete the payment step in **F110** or else delete the proposal via **F110** to "*free up*" these items for manual clearing.

d) Read the following notes below:

152813 - Items not displayed for 'Process open items' (/sap/support/notes/152813)

136754 - F-03, F-32, F-44, F-28 missing open items (/sap/support/notes/136754)
